

# GMS HDM01

## Glass Drilling Machine

October 2015

Glass Machinery & Equipment

### Product Description

The GMS HDM01 is a robust twin-head horizontal drilling machine. The glass is gripped by a pneumatically controlled circular plate.

### Key Benefits

- Automatically controlled lower drill head whilst the upper drill head is controlled manually or automatically depending on the model selected
- Designed to operate in a medium-sized production facility and due to its simplicity in operation will ensure consistent, quality drilling.

### Technical Data

Glass processing thickness	3mm - 19mm
Drilling diameter range	4mm - 220mm
Throat distance	1200mm
Power	3.85Kw
Weight	800kg
